**Female groin guards required by some competition rules.

***16oz Gloves** are for class sparring, to protect the other person.

The ones we supply have been tested. Many cheap gloves labelled 16oz are under-weight or have most of the padding over the wrist rather than covering striking area of knuckles – hence cheap to make but offer little or no protection and **cannot be used in class.**

(Initially, most classes typically have a couple of pairs of old 16oz gloves, beginners can use - before buying their own – to 'fit like a glove').

Bag gloves: NOT for sparring (minimal padding - used to prevent blisters on knuckles when hitting a punch bag or pads.

Competition gloves: Typically lighter boxing gloves usually supplied by event organisers.
